Section 3: Clerical Review

My review indicates:

1. the application is complete.
2. X the application is incomplete.

Additional explanation (if required) Velocity was deregulated last year. It appears that they haven't filed an application for 2019 or 2020, see L2000088. The business license to Velocity TGCE was voluntarily cancelled. There is a new business license in the New Company Name. They are now known as Velocity A Managed Services Company, Inc. This application was filed as a 303, when they should have filed as a 301, for this reason I think they could be found incomplete.
